

OUTDOOR LIGHTING STANDARDS FORM

Unless exempt, Eugene Code Section 9.6725 requires all new exterior lighting fixtures installed after August 1, 2001, to comply with standards designed to minimize light extending toward the sky or toward surrounding properties. The following lighting fixtures are exempt from meeting these lighting standards:

- ☐ 1. A lighting fixture that does not exceed 1,500 lumens when the light is directed within the boundaries of the development site.
- ☐ 2. Emergency lighting.
- ☐ 3. Lighting fixtures that must conform to federal or state regulations, such as airport runway lights, TV and radio transmissions towers, telecommunication towers and railroad lights.
- ☐ 4. Holiday lights and decorations in place during the period between November 15 and January 15, except such lights shall not cause excessive glare that creates a public safety hazard.
- ☐ 5. Temporary lighting installed for temporary activities.
- ☐ 6. Lighting for governmental flags.
- ☐ 7. Temporary lighting necessary for construction sites.
- ☐ 8. Public streetlights designed, permitted and constructed in accordance with standards and specifications adopted pursuant to Chapter 7 of the City code.

Name (printed): _____ Date: _____

Signature _____

If the proposed lighting is not exempt, EC 9.6725(7)(b) requires verification by a lighting specialist that the standards are met prior to application to the City:

_____ I have reviewed the plans and information related to lighting in this application and consider myself to be a lighting specialist based on my education and/or experience with lighting. As a lighting specialist, I verify that the information supplied in this application **complies with the outdoor lighting standards contained in Eugene Code section 9.6725.**

Name (printed): _____ Date: _____

Signature _____

Site Address: _____ Permit #: _____
